# Firmware Update Guide

Universal Fighting Board

This document describes how to update the firmware of Brook Universal Fighting Board.

> ⚠   **NOTE :** The update must be done on a PC; it cannot be done on a console.
> ⚠   **NOTE :** Make sure your PC is connected to the internet.
> ⚠   **NOTE :** The ONLINE version firmware just needs to be downloaded once. The
>   following firmware updates will be executed online with this program.

**STEP 1**   Download the update files from "**Download**" on Brook website:
www.brookaccessory.com

STEP 2   Press and hold **PS** and **SHARE (or SELECT)** buttons at the same time. While pressing these
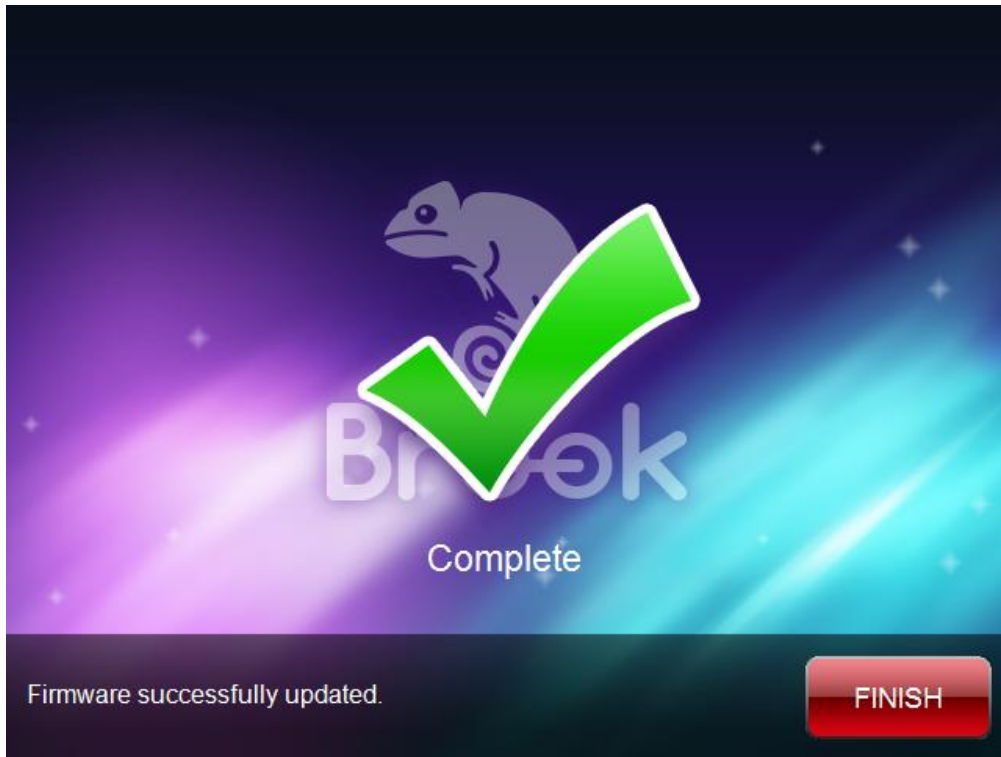

buttons, connect the USB to the computer.

STEP 3 When **START** icon shows up, click the icon to start update.

STEP 4 **DO NOT** disconnect during the update process.

STEP 3 When **START** icon shows up, click the icon to start update.

STEP 5   The following screen will be shown once update has successfully finished.

STEP 6   In case the firmware update fails, the following screen will show. Failure could have the following cause: wrong file.

Please try to redo the setup from the beginning. We recommend that you visit our website www.brookaccessory.com and download the update file again before restarting the update.
