

# Firmware Update Guide

---

## Marine Controller Adapter

This document describes how to update the firmware of the Brook Marine Converter.

- ⚠ **NOTE** : The update must be done on a PC; it cannot be done on a console.
- ⚠ **NOTE** : Make sure your PC is connected to the internet.
- ⚠ **NOTE** : Disable antivirus before executing the program.
- ⚠ **NOTE** : The ONLINE version firmware just needs to be downloaded once. The following firmware updates will be executed online with this program.

**STEP 1** Download the update file from “**Download**” on Brook website: [www.brookaccessory.com](http://www.brookaccessory.com)

Run the program.

**STEP 2** Connect Marine to PC, follow Step2 and Step3 carefully

**STEP 3** Then press NEXT

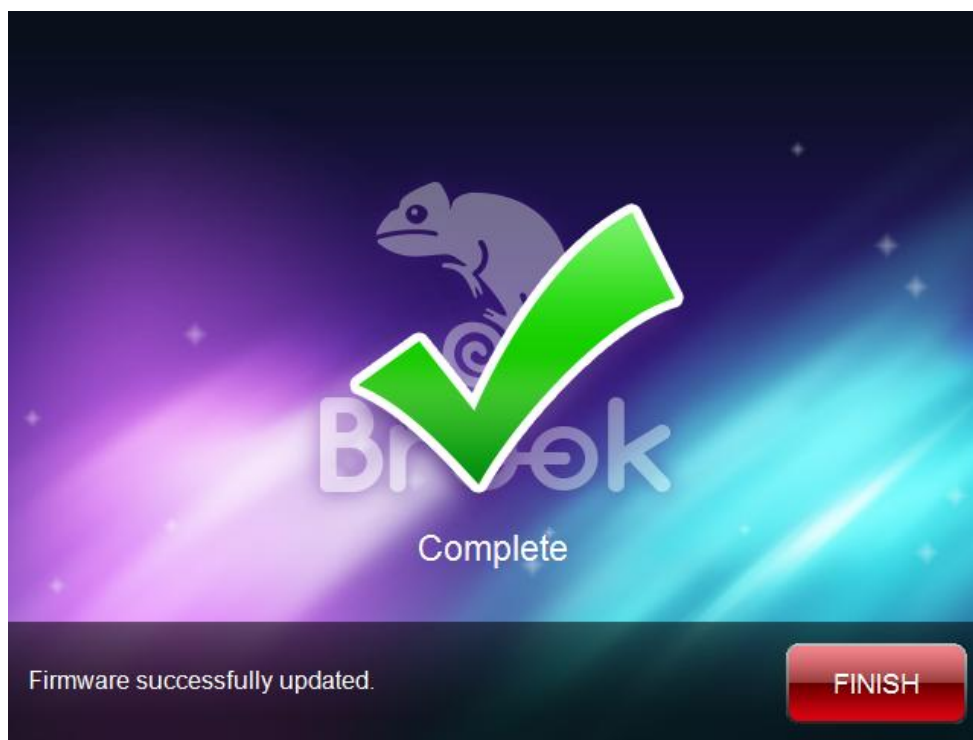

**STEP 4** **DO NOT** disconnect the converter during the update process

**STEP 5** Follow the illustration carefully to exit update.

**STEP 6** Update complete

**STEP 7** In case firmware update fails, the following screen will show up, and please close the window and start over.

You may visit our website [www.brookaccessory.com](http://www.brookaccessory.com) and download the update file again before restarting the update.
